SUMMARY

Java Developer with 1.2+ years of experience in building scalable RESTful APIs and microservices using Java, Spring Boot, Hibernate, and JPA. Strong experience with MySQL, MongoDB, Spring Security, JWT authentication, and CI/CD pipelines. Proven ability to optimize backend performance, debug production issues, and work in Agile/Scrum environments.

TECHNICAL SKILLS

Java	Microservices	Docker
Mysql	Kubernetes	RESTful APIs
Spring Boot	Hibernate	MongoDB
CI / CD	JPA	Maven

PROFESSIONAL EXPERIENCE

Associate Software Engineer, Big Data Bizviz Technologies Pvt.Ltd **Nov 2024 - Dec 2025**

- Developed and deployed high-performance RESTful APIs for enterprise applications using Java, Spring Boot, and Hibernate/JPA.
- Implemented full CRUD operations and integrated backend services with MySQL and MongoDB.
- Secured APIs using Spring Security, JWT authentication, and role-based access control(RBAC).
- Optimized SQL and MongoDB queries and enhanced backend business logic, resulting in a 20% improvement in system performance.
- Tested APIs using Postman and resolved production issues through debugging and log analysis
- Implemented CI/CD pipelines using GitLab CI and automated deployments with Docker and Kubernetes

EDUCATION

Bachelor of Technology in Computer Science And Engineering **May 2019 - May 2023**

AP IIIT RGUKU RK Valley University , Idupulapaya Kadapa

- Relevant coursework in Plant Leaf Disease Detection Using Deep Learning.

ADDITIONAL INFORMATION

- Languages:** English, Telugu, Hindi, Kannada
- Certifications:** Java Full-Stack Trainee, AWS Technical Essentials.
