

DHARANIPATHI PALA

JAVA DEVELOPER

Bangalore, Karnataka | dharanipathipala@gmail.com | +91 - 6303547066

SUMMARY

Java Developer with 2+ years of experience in building scalable RESTful APIs and microservices using Java, Spring Boot, Hibernate, and JPA. Strong experience with MySQL, MongoDB, Spring Security, JWT authentication, and CI/CD pipelines. Proven ability to optimize backend performance, debug production issues, and work in Agile/Scrum environments.

TECHNICAL SKILLS

Java	SQL (MySQL)	CI / CD	Kubernetes
Spring Boot	MongoDB	Maven	Git
Microservices	REST APIs	Core Java	Docker
Hibernate	Debugging	Jira	AWS

PROFESSIONAL EXPERIENCE

Associate Software Engineer, Bizviz Technologies Pvt Ltd | Bengaluru Nov 2024 - Dec 2025

- Developed and deployed high-performance RESTful APIs for enterprise applications using Java, Spring Boot, and Hibernate/JPA.
- Implemented full CRUD operations and integrated backend services with MySQL and MongoDB.
- Secured APIs using Spring Security, JWT authentication, and role-based access control (RBAC).
- Optimized SQL and MongoDB queries and enhanced backend business logic, resulting in a 20% improvement in system performance.
- Tested APIs using Postman and resolved production issues through debugging and log analysis .
- Implemented CI/CD pipelines using GitLab CI and automated deployments with Docker and K8s.

Junior Java Developer, AU Technology Consulting Pvt.Ltd | Bengaluru Aug 2023 - Sept 2024

- Developed and maintained enterprise applications using Core Java, Spring Boot, and RESTful APIs to support business requirements
- Designed and optimized SQL queries and database operations, ensuring efficient data management and application performance
- Collaborated with cross-functional teams in an Agile environment, participating in sprint planning, code reviews, testing, and deployment activities

EDUCATION

Bachelor of Technology in Computer Science and Engineering May 2019 - May 2023

Rajiv Gandhi University of Knowledge and Technologies, Kadapa, Andhra Pradesh

- Relevant coursework: Plant Leaf Disease Detection Using Deep Learning.

ADDITIONAL INFORMATION

- Languages:** English, Telugu, Hindi, Kannada
- Certifications:** Java Full Stack Developer, AWS Technical Essentials..
